

2016 Active Living Detroit Mini-Grants

Do you have an idea for how to promote active living and physical health in your neighborhood?

Mini-grants of up to \$1000 are being awarded to Detroit-based community groups developing sustainable projects and activities that promote active living and physical health in Detroit neighborhoods. Priority will be given to projects that:

- 1) Engage community residents, particularly youth;
- 2) Support complete streets concepts or implementation;
- 3) Utilize a Detroit Greenway; and/or
- 4) Promote community based change in the built environment to encourage physical activity.

Any neighborhood group or organization located in the city of Detroit may apply. This includes, but is not limited to, block clubs, art groups, service organizations, churches, parks and recreational organizations, professional associations, public and non-public school-based groups, and individuals.

Mini-grants will be awarded to Detroiters working to achieve these goals through creative community-based projects. Projects are to be implemented June 2016 — December 1, 2016.
